

Joseph Whiteaker

Freelance Full-Stack Developer

Bluffton, SC
(843)-476-2895
josephsims1@gmail.com

SKILLS

Frontend Frameworks - Angular and React

- Made my first portfolio site with React and 2 web applications for clients with React. Used Angular to make my new portfolio site.

Backend Frameworks - Laravel, Flask, ExpressJS, and Django

- Used Laravel's MVC and Django's MVT full-stack approach to web development. Also have taken advantage of these frameworks as dedicated backends and utilized APIs to connect to the frontend.

Mobile Development - React Native

- Have experience with React Native and easily picked up on it after knowing and writing React for so long.

Web Hosting - S3 Buckets, AWS

Elastic Beanstalk, Netlify, Vercel, Heroku, and Azure.

- Use Netlify and Vercel to host simple little web apps when I am learning a stack or writing code on a development branch. Use S3 buckets for static files and Heroku for server-side hosting.

EXPERIENCE

Freelancing - Web Development

October 2019 - Present

- Have made two simple frontend sites for two clients and my resume with a React and a UI component kit.

EDUCATION

Presbyterian College

- Fall 2019 - Spring 2021 (Transferred to UofSC)

University of South Carolina Columbia, SC - *Mathematics*

Fall 2021 - Spring 2023

AWARDS

- Obtained the rank of Eagle Scout
- 3.76 GPA
